```

graph TD
    Root[ ] --- Summary[summary]
    Root --- Merge[merge]
    Summary --- X[X]
    Summary --- Y[Y]
    Merge --- a1[a1]
    Merge --- b1[b1]
  
```

The diagram illustrates a file manager interface for a merge operation. It features a title bar with a square icon. The main area is divided into two panes. The left pane contains a 'summary' button and two file icons labeled 'X' and 'Y'. The right pane contains a 'merge' button and two file icons labeled 'summary of X' and 'summary of Y'. Below the right pane, there is a 'summary of Y' label and an 'ALL' button with a folder icon.

The diagram illustrates two product lines, Product Y and Product X, each with two companies (Company A and Company B) and their respective components (a2, b1 and c1).

**Product Y:**

- Company A:** a2, b1
- Company B:** c1

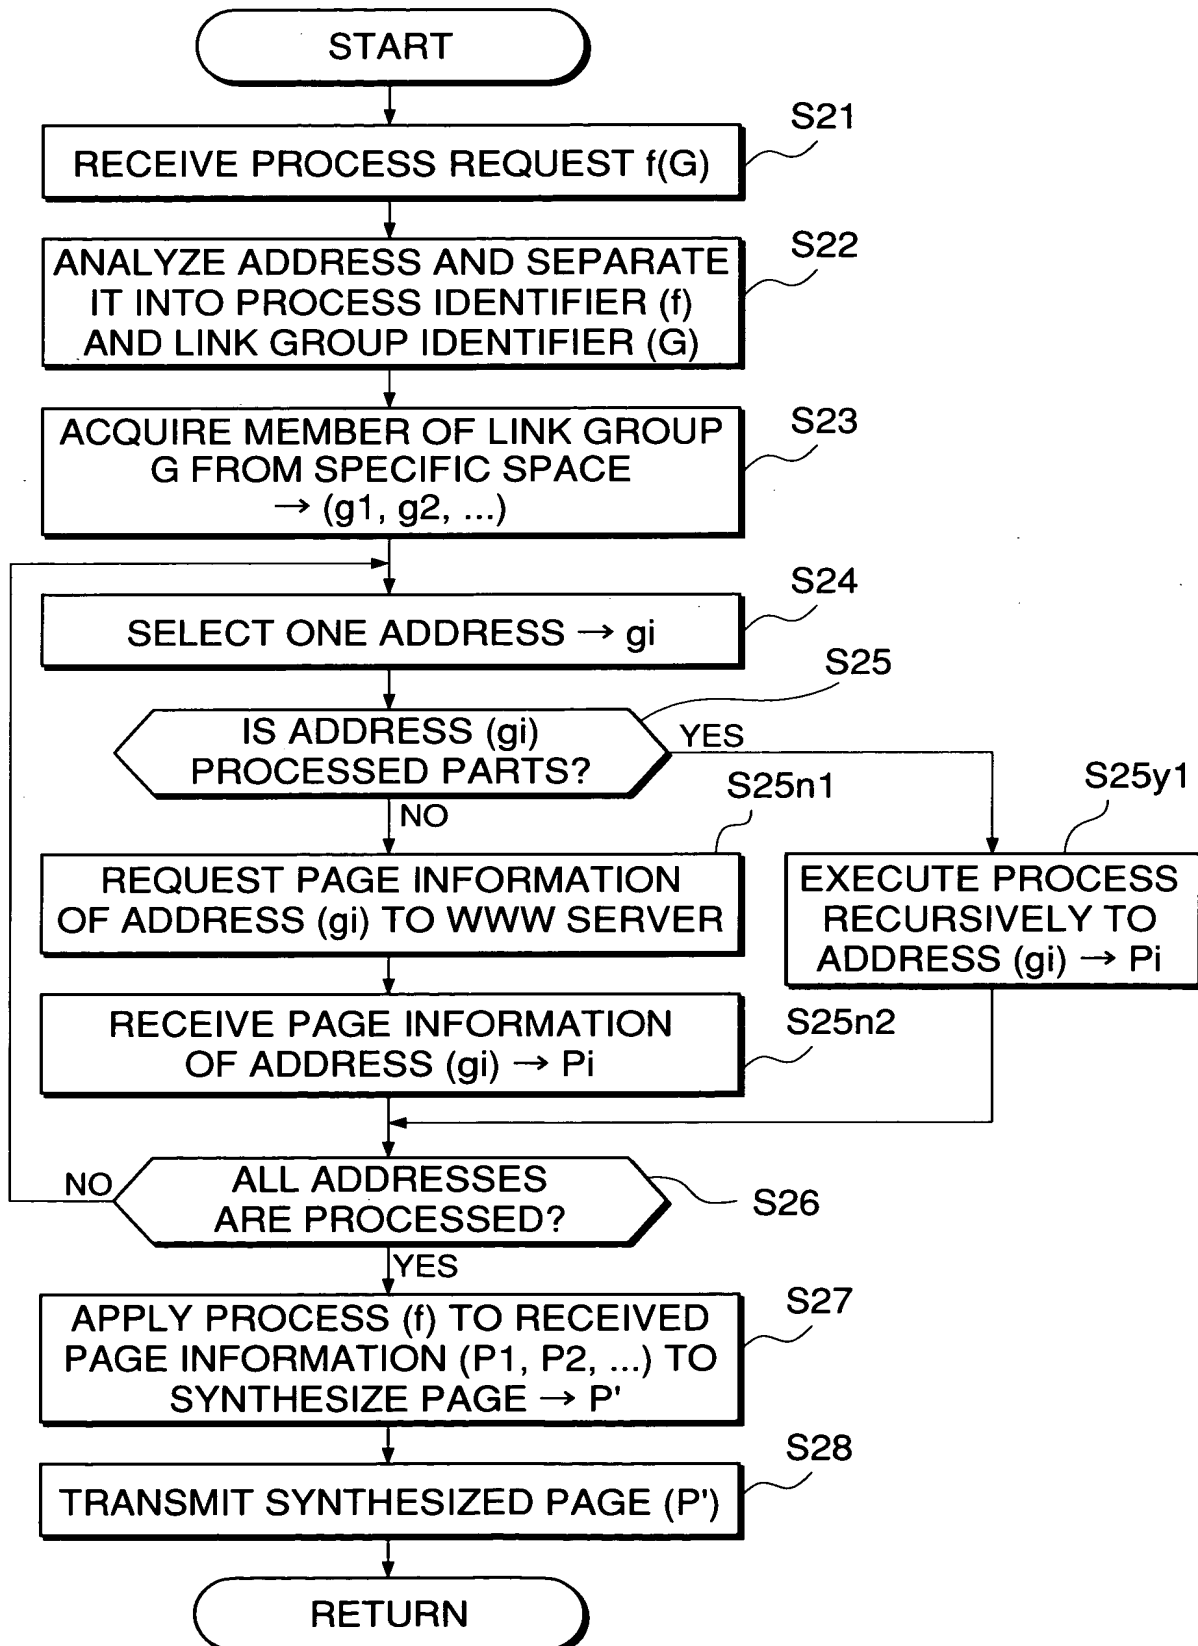

**Product X:**

- Company A:** a2, b1
- Company B:** c1

The diagram illustrates three product categories, each with a company logo and a product image:

- Product X**: Logo for **Company C** (a circle with horizontal lines) and a product image (a box with horizontal lines and a central oval).
- Product Y**: Logo for **Company A** (a square with horizontal lines and a central square) and a product image (a box with horizontal lines and a central square).
- Product B**: Logo for **Company B** (a square with horizontal lines and a central square) and a product image (a box with horizontal lines and a central square).
